Description of the idea / problem / exercise: **Building a maze**

The children first built a maze using only the basic colors, then recognized the small shapes and began to put them together as well.

- *Why this exercise is good:* Development of fine motor skills, color and shape recognition.
- *Has anyone tried this? If yes, when and where?:* Luca Kamilla Csőke, October 2024, Ovi-Vár Nursery School
- *Notes:* It was mostly boys aged 4-6 who built with it. Perhaps it would be easier for younger children if there were only 2-3 colors on each piece.
