Author's name and institution: **First-year students**, Partium Christian University, Oradea, Romania

Formal and/or non-formal educational setting: **Both**

Most relevant age group: **6-8 years old**

Az ötlet/gyakorlat/feladat leírása: **Geometric shapes in a playful way**

The children's task is to create the following geometric shapes: rhombus, hexagon, trapezoid, large triangle. Try to create the shapes so that the basic colors are the same.

- *Why this exercise is good:* In addition to basic geometric shapes (circle, triangle, square), learning about other shapes using the Poly-Universe tool.
- *Has anyone tried this? If yes, when and where?:* No
- *Notes:* This activity can be recommended to help children transition to school in a playful way.
