

EARLYPOLY EMO_405_EN

Author's name and institution: **Judit Kövesi**, Szokolya Village Börzsöny Gyöngye Kindergarten and Nursery

Formal and/or non-formal educational setting: **Both**

Most relevant age group: **3-5 years old**

Description of the idea / problem / exercise: **Matching objects of different shapes to shapes.**

Matching can also be done with pictures.

Each group is marked with a single symbol:

1. for example, triangles can be represented by a pine tree, a slice of pizza, or a slice of cheese;
2. squares by a window or a gift box;
3. circles by the sun, a ball, a clock, etc.

To make it more difficult, use pictures that contain multiple shapes, such as a car or a house.

- *Why this exercise is good:* Shape recognition, set formation, group formation. Intellectual development, speech skills development, verbal communication, shape-background discrimination.
- *Has anyone tried this? If yes, when and where?:* Yes, in the Fecske group. December 2024.
- *Notes:* (any)
